END OF SUPPORT FOR WINDOWS 98 AND WINDOWS ME

Microsoft are ceasing support of their Windows 98, Windows 98 Second Edition and Windows ME software as from 11 July 2006. This decision has been taken in the light of the age of the systems and the increased security risk issues.

Customers using such operating systems should consider upgrading to a newer system, such as Windows XP. Apart from improved performance there are clear security benefits.

For more information, click ([here](#)) for a link to Microsoft link, or contact your Computerwise Account Manager for further advice.

IRIS ENTERPRISE: EXCHEQUER V5.70.002

This version has now been fully released, and we will be upgrading users to this version once we have completed our usual assessment.

The release contains the new importer feature that permits the import of records and data from IMP flat format files or CSV file formats, together with extended OLE drill-down functions. Additionally there are over twenty-five modifications on the Visual report Writer and Trade Counter modules.

More importantly it has addressed an issue relating to Toolkit where the User Count was corrupted. This gave rise to instances where customers hit licensing restraints earlier than should have occurred.

PEGASUS OPERA AND OPERA II UPGRADES

Having completed the upgrade of payroll sites, we are now carrying out the upgrade of Opera non-payroll sites.

To this end we have contacted all customers that have a contract for us to carry out the upgrades on-site, to arrange a suitable date and time for this work to be carried out.

Opera 16 postal contracts should have received their upgrade (v3.41.00) already, whilst Opera II upgrades will be distributed by 14 July.

If you have not been contacted, or received the upgrade by the due date, and hold a current Opera contract, please let Support Department know so that they can investigate the situation.

NEWSLETTER INDEX

We are in the process of producing an index to past issues of our newsletter. This index will be published on our website shortly, and as soon as it is available we will advise you accordingly.

EDI with IBM Mailbox ~ Migration Deadline Imminent

If you use EDI with IBM Mailbox, your EDI supplier should have contacted you regarding the migration of your mailbox to use the new server. Urgent action is required to ensure that your EDI software is able to continue to exchange messages with the IBM network.

If you have any queries please contact us for advice.

STOP IT!

We hope that you find our e-mailed information sheets of direct help to you and your business. However, if you wish to remove your name from the mailing list or make changes regarding recipients, please contact John Stannard, Support Department.

Computerwise Limited is now part of a much larger group with offices in Bromley, Colchester, Portsmouth, Truro and Wimbledon.

This structure provides you with the stability and expertise that a large company can offer whilst coupling it with the care and responsiveness exercised by a smaller concern.
