PEGASUS CAPITAL GOLD ACCOUNTS ~ V3.60.00

We are pleased to advise you that Pegasus have released Capital Gold Accounts v3.60.00. This is a maintenance release, the chief element of which is its compatibility with MS Windows Vista ~ Ultimate, Business and Home (all variants). It is also compatible with Windows XP (SP3).

Other minor corrections relate to a Reverse Charge VAT message being incorrectly issued in certain circumstances, and the Job Field being available after editing on systems where Job Costing should not be activated.

In view of the above changes, we intend to issue this release on a request only basis.
